

# AFRIKAN RESTORATION PROJECT

## SCHEDULE OF EVENTS

**THE AFRIKAN RESTORATION PROJECT OF LONG BEACH** was organized in 2004 to provide a body of knowledge to our community that contributes to the restoration of African history and culture. We meet on a weekly basis to educate one another, engage in rich discussion and provide an environment that promotes a holistic African worldview.

Our **purpose** is to promote the study of African civilizations for the development of an African worldview. Our **aim** is to build an African centered work and study group and support existing institutions. Our **strategy** is to use our accumulated knowledge for the liberation of African people wherever they may be. Our **commitment** is to the truth.
